

Reference List

Rev. 01

18th of June, 2018

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
ENI	ENI	Collecting and removal plant of odorous substances emitted from fuel oil storage tanks	Detail Design	Livorno	2018
EXPERTISE	ENI	Collecting and removal plant of odorous substances emitted from bitumen storage tanks	Detail Design	Livorno	2018
EXPERTISE	ENI	Vapor recovery unit relocation in provisional position for alignment to blow down of loading vapors	Detail Design	Taranto	2018
DG IMPIANTI INDUSTRIALI	SYNDIAL	Lines, loading arms and tanks dismantling on the pier oil and near the quay of the plant	Feasibility Study	Manfredonia	2018
PROGER	ENI	Revamping of the vapor recovery unit, serving fuel oil and bitumen storage tanks	Detail Design	Taranto	2018
ENI	ENI	Rebuilding of the crossing OL34 oil pipeline in the industrial canal of Livorno harbor	Basic Design	Livorno	2018
DG IMPIANTI INDUSTRIALI	SYNDIAL	Power supply of groundwater treatment remediation systems	FEED	Brindisi	2018
PROGER	ENI	Alignment to the blow down network of the vapor recovery unit from ship loading	Detail Design	Taranto	2018
ENI	ENI	Stress analysis of the existing circuits with partial replacement of the steam distribution manifold at 80 barg	Detail Design	Livorno	2018
DG IMPIANTI INDUSTRIALI	SYNDIAL	Technical specifications for the supply of rotating machines	Basic Design	Manfredonia	2018
GST	ENI	Development of temperate water circuit check, unit 1400, to feed new exchangers E-1418 C/D	FEED	Taranto	2018
PROGER	ENI	Fire fighting system of pumps rooms SF-1 and SF-2	Detail Design	Fiorenzuola d'Arda (PC)	2018
PROGER	VERSALIS	Upgrading of No. 8 electrical substations	Detail Design	Brindisi	2018

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
ENI	ENI	Installation of a suction air separation unit to the fan VTL-7101	Basic Design	Livorno	2018
ENI	ENI	Heat exchanger E-863 replacement	Basic Design	Livorno	2018
ENI	ENI	Hydraulic test on the pumps P-81 A/B suction circuit	Detail Design	Livorno	2018
ENI	ENI	Verification of the structure of pipe rack of street No. 4	Detail Design	Livorno	2018
ENI	ENI	Structure/building for the training of the personnel responsible for rescue and recovery from confined spaces	Detail Design	Livorno	2018
ENI	ENI	Design of the doubling of instrument and service air lines and optimization of exchange logic of air dryers	Detail Design	Livorno	2018
PROGER	ENI	Change of intended use of the tank TK-24	Detail Design	Rho (MI)	2018
ENI	ENI	Connection of firefighting water between tanks S-101 and S-112	Detail Design	Livorno	2018
ENI	ENI	Restoration of chemical laboratory	Detail Design	Livorno	2018
ENI	ENI	New gangway at Darsena Petroli	Detail Design	Livorno	2018
ENI	ENI	Connection between pumps P-81 A/B to tanks TK-98 / TK-100	Detail Design	Livorno	2018
ENI	ENI	Rain water collection and sorting in the basin S-101	Detail Design	Livorno	2018
ENI	ENI	Electrical system of chemical laboratory	Detail Design	Livorno	2018

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Installation of new bitumen storage tank	Detail Design	Sannazzaro de' Burgondi	2018
PROGER	ENI	Upgrading of bitumen park	Detail Design	Sannazzaro de' Burgondi	2018
PROGER	ENI	Installation of new pumps J-9646 / J-9648	Detail Design	Sannazzaro de' Burgondi	2018
PROGER	ENI	Stress analysis of hydrogen lines	Detail Design	Sannazzaro de' Burgondi	2018
ENI	ENI	Installation of the new fan K-102 C	Detail Design	Taranto	2018
ENI	ENI	Installation of the new air cooler E-1419	Detail Design	Taranto	2018
ENI	ENI	Construction of No. 4 structures for bitumen vapor recovery unit valves handling	Detail Design	Taranto	2018
ENI	ENI	Filter installation on head topping condenser	Detail Design	Taranto	2018
PROGER	ENI	Identification and reducing of the causes of vibrations induced by alternative compressors to the lines connected to them	Detail Design	Taranto	2017
PROGER	ENI	Revamping of active and passive fire protection system to protect the butylene discharge platform	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Seismic vulnerability assessment of No. 8 buildings within the Plant	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Design of steelworks for piping supports involved in the fire of the column C-101	Detail Design	Taranto	2017
DG IMPIANTI INDUSTRIALI	ENI	Replacement of column head E-1101 for metallurgic up-grade	Detail Design	Sannazzaro de' Burgondi	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas

PROGER	ENI	Design for the recovery of the reliability of high-pressure exchangers C-2301 / C-2302	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Design of new steel work structures for ATB area island 17	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Structural verification of the column C-101	Detail Design	Taranto	2017
DG IMPIANTI INDUSTRIALI	ENI	Replacement of head column E-3402 for metallurgic up grade	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Upgrading of the logistics system (storage, handling, refining, ship loading) of Tempa Rossa crude oil	Detail Design	Taranto	2017
PROGER	ENI	Interventions in the WBS1 Taranto Contingency Plan activities, including detail engineering for the upgrading of the logistic (storage, handling and ships loading) of the bitumen	Detail Design	Taranto	2017
PROGER	ENI	Re-building of reaction section and stripping of HDS2 unit	Detail Design	Sannazzaro de' Burgondi	2017
GST	ENI	Analysis of the logistic operations within the "Contingency Plan Taranto" project, in order to identify critical issues and any interferences	Basic Design	Taranto	2017
PROGER	ENI	Re-building of the interconnecting rack on ROSE unit	Detail Design	Sannazzaro de' Burgondi	2017
GST	ENI	Revamping of the current system of vapor recovery installed at SOI MOV, that deal with vapor coming from tank of fuel oil, in order to use it to treat also vapors coming from bitumen storage tanks	Basic Design	Taranto	2017
PROGER	ENI	Multidisciplinary design of the unit 18 (HDS) damaged by the fire	Detail Design	Sannazzaro de' Burgondi	2017
GST	ENI	Improvement of the Plant management related to bitumen logistic (storage and loading)	FEED	Taranto	2017
PROGER	ENI	Plant improvement useful to tanker truck loading of bitumen produced in the Plant	Detail Design	Sannazzaro de' Burgondi	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Determination of the strength of reinforced concrete and reinforcing rods by execution of tests on materials for reinforced concrete chimneys E-1, E-2 and E-8	Detail Design	Taranto	2017
PROGER	ENI	Design for TAF unit interconnecting to Refinery	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Insulation of the utilities lines of the STR-001 structure of the EST unit	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Stress analysis on all lines of the EST unit	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Stress analysis of the line form C-90181 to E-90105	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Checks and controls of creep conditions of B-2302 A	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Stability calculation to verify the nozzle of reactor D-1801 B	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Stability calculation and technical specification for the boiler F-50 and of the furnace B-8003 repairing	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Structural calculation of the skirt and of all steel works to sustain the Column C-101	Detail Design	Taranto	2017
PROGER	ENI	Execution of NDCs for piping maintenance activities included in the catalytic shutdown	Detail Design	Taranto	2017
PROGER	ENI	Technical specification for the ducting of the F-4401 furnace	Detail Design	Taranto	2017
PROGER	ENI	Technical documentation for the notification of the entry into service of the HDS2 unit	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Technical documentation for the notification of the entry into service of air cooler C-1010	Detail Design	Sannazzaro de' Burgondi	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Verification of safety systems of the VACUUM unit heat exchangers	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	Versalis	Verification of stability of the tank F-289	Detail Design	Brindisi	2017
PROGER	ENI	Structural verification boiler of the F-7503 casing	Detail Design	Taranto	2017
PROGER	Versalis	Static verification of the vessel V-2109 skirt	Detail Design	Brindisi	2017
PROGER	ENI	Tehcnical specification for furnace boiler B-5802 replacement	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Verification of the minimum thicknesses of the tank T-3114	Detail Design	Taranto	2017
PROGER	ENI	Technical documentation for conformity declaration to replace HDS-2 reactors	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Declaration on normal operating thermal conditions of C-2301 - C-2302 - C-2303 - C-2304 - C-2305 - C-2306 - C-2307	Detail Design	Sannazzaro de' Burgondi	2017
PROGER	ENI	Development of FMECA analysis of Tempa Rossa pipeline	Detail Design	Taranto	2017
GST	ENI	Installation of a slurry FCC filtration package	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Updating of the lines into the pipe-trench, with laser scanner methodology	Detail Design	Taranto	2016
PROGER	ENI	Installation of a new liquid ring compressor replacing the existing K-6101	Detail Design	Taranto	2016
PROGER	ENI	Development of FMECA analysis of the Viggiano-Taranto pipeline	Detail Design	Taranto	2016

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Metallurgic up-grade of the HDC reactor D-2301	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Verification of safety and seismic vulnerability assesment, according to NTC 2008 (Italian Technical Regulation for Construction) of 3 vessel and 5 reactors	Detail Design	Taranto	2016
PROGER	ENI	Architectural design for the erection of bridge over the pipe trench and study of re-planning of the roads into the plant	Detail Design	Taranto	2016
GST	ENI	Installation of a new liquid ring compressor to serve the torch U-72	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Plant upgrading in order to assure a proper level of reliability of the power supply distribution network, modifying the MCC in the SS-12 electrical substation	Detail Design	Taranto	2016
PROGER	ENI	Installation of the filter L-90111 on the circuits between the columns E-90104 and E-90105	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Design for the execution of the works useful to modify the burners on the furnace B-1312 / B-1201 / B-1203 / B-1101, in order to comply the regulation in force regarding NOx emission limits	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Verifications on circuits to solve the problems related to the temperature control and level of the E-90105 column bottom	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Technical-bureaucratic practices in order to execute the structural works to protect the pipeline room	Detail Design	Terracina (LT)	2016
PROGER	ENI	Foundation strengthen of the torch A-6101 N	Detail Design	Taranto	2016
PROGER	ENI	Connection of the tank S-48 to the units Topping 1 and 2	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Air cooler C-90157 C/D installation, parallel to the current C-90127 A/B, by using the existing pipe rack PR-01	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Verification of the DESGAS network from Garo D to E-5601 / E-1601 / E-2601	Basic Design	Sannazzaro de' Burgondi	2016

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Displacement of the BIO3 electrical substation power supply of the new water reuse system from the board MT-6KV ex PRAOIL to the EST1-01 board in SS1	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Rationalization of the high pressure vapor network, redesigning the distribution of the vapor recovering the enthalpy energy, avoiding the vapor dissipation, due to the direct rolling on the media network	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Increasing of reliability of RC3 unit, by installing No. 2 exchangers to place on suitable structures	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Design of transport, storage and transfer systems, into the cement plants that use the pitch (residue from the processing EST plant) as combustible for furnaces	Detail Design	Sannazzaro de' Burgondi	2016
ICOM	ENI	Design and drafting of the technical file (PED-ATEX) for No. 8 vessels (pulsation dumper)	Detail Design	Taranto	2016
PROGER	ENI	Implementation of video surveillance system in the GPL storage area	Detail Design	Taranto	2016
PROGER	ENI	Identification of the best plant layout and engineering solutions to use the pitch (residue from the processing EST unit) in CEMENT Plants	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Identification of the plant layout in order to improve and automate dispatch and dosing of the pitch (residue from the processing EST unit) to GAS Plants	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Engineering assistance to non destructive controls of units 12 / 13 / 15	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	HazOp session for RC3 reliability increasing	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Planning of out of service plant by PRIMAVERA project plan	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Verification update in compliance with NTC 2008 (Italian Technical Regulation for Construction) for the static safety of column C-1302	Detail Design	Taranto	2016

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	VERSALIS	Stability calculation of No. 6 overhead cranes BR-I140 / BR-I141 / BR-I142 / BR-I143 / BR-I144 / BR-I145	Detail Design	Brindisi	2016
PROGER	ENI	Stability calculation for structural verification of spherical tanks SFR-3401 and SFR-3402, in compliance with NTC 2008 (Italian Technical Regulation for Construction)	Detail Design	Taranto	2016
PROGER	ENi	Engineering assistance to mechanical activities foreseen during out of service plant 2016	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Stress analysis related to the circuits afferent the heat exchanger C-90152	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Installation of the air coolers C-90157 A/B	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	As built surveys of the main and secondary pipe trenches by laser scanner	Detail Design	Taranto	2016
PROGER	ENI	Design of the tube bundle heat exchanger C-1003 A/B/C/D	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	VERSALIS	Stability verification of tank F-200	Detail Design	Brindisi	2016
PROGER	ENI	Preparatory activities to non destructive controls for insulated tanks	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Stress analysis for compressors J-90102 / J-90104	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Detail engineering for design (calculation + designation) in compliance with NTC 2008 (Italian Technical Regulation for Construction) walkway on chemnys to allow environmental measurement in compliance with regulation	Detail Design	Taranto	2016
PROGER	ENI	Design (calculation report and drawings) in compliance with NTC 2008 (Italian Technical Regulation for Construction) main pipe trench overpass bridge	Detail Design	Taranto	2016

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Technical specification and technical advice tube bundles for heat exchangers C-8230 / C-8231 / C-8232 / C-8233	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Certification on nominal operating thermal condition of the heat exchanger C-2504	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Seismic vulnerability in compliance with NTC 2008 (Italian Technical Regulation for Construction) of the reactor E-4121 and of the column C-1401	Detail Design	Taranto	2016
PROGER	ENI	HazOp analysis for installation of a new liquidi ring compressor	Basic Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Certification on nominal operating thermal condition of F-5851 boiler	Detail Design	Sannazzaro de' Burgondi	2016
PROGER	ENI	Verification of the static suitability of a main pipe trench crossing bridge	Detail Design	Taranto	2016
PROGER	VERSALIS	Verification of the static suitability of the RV-401 torch	Detail Design	Brindisi	2016
PROGER	ENI	Stress analysis of the line from pumps J-90312 A/B to pumps J-90121A/B	Detail Design	Taranto	2016
PROGER	ENI	Relocation of the pitch aspiration pump J-90308 (residue from the processing EST plant) from the tank G-7304	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Upgrading of low voltage switchgear placed into the electrical substation ex DE.INT	Detail Design	Taranto	2015
PROGER	ENI	Installation of containment basin for tanks containing oily waters	Detail Design	Ortona	2015
PROGER	ENI	Replacement of the pump turbine J-9607, provided of electric motor	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Drafting of the work specification and cost estimate $\pm 15\%$ for the C-5303 column head replacement	Detail Design	Sannazzaro de' Burgondi	2015

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
PROGER	ENI	Structural verification of steel work supporting devices and pipe rack in compliance with best practices related to passive protection systems of the bearing structures of the process plants	Detail Design	Taranto	2015
PROGER	ENI	Installation of a plate heat exchanger for energy recovery for the operation of the furnace B-5002	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Piping and electrical interconnecting of the pitch drying skid (residue from the processing EST plant)	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Verification and certification of the preservation conditions of the reinforced concrete structures of Taranto oil pier.	Detail Design	Taranto	2015
PROGER	ENI	HazOp analysis for the upgrading of the exchange train	Basic Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Structural verification for insertion of fire proofing on pipe rack	Detail Design	Taranto	2015
PROGER	ENI	Suction and delivery stress analysis of the pump J-1601	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Structural verification of oil pier in compliance with NTC 2008 (Italian Technical Regulation for Construction)	Detail Design	Taranto	2015
PROGER	ENI	Suction and delivery stress analysis of the pump P-473	Detail Design	Taranto	2015
PROGER	ENI	Planning of 2015 out of service of units HDC2 - SWS4 - DG4 - IGAS - H2 - HDS2 - ZOLFO2 - DG2 - ROSE - DP2 - VACUUM - EST	Detail Design	Sannazzaro de' Burgondi	2015
PROGER	ENI	Verification on rotating machines in compliance with the Annex V of national Low Decree 81/08	Detail Design	Taranto	2015
PROGER	ENI	Structural verification for fire proofing insertion on pipe rack	Detail Design	Taranto	2015
PROGER	ENI	HazOp for GAS plant, unit 94, Topping 2	Basic Design	Sannazzaro de' Burgondi	2015

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Oil & Gas					
TECNOMECC	ENI	Upgrading of the loading of crude oil by sea line having rate 6.000 m3/h	Detail Design	Taranto	2014
SIMECO	ENI	Installation and interconnecting of a skid package to allow the natural gas feeding of the unit U-2500	Detail Design	Taranto	2013
SIMECO	ENI	Installation of a tank to collect washing waters coming from the "Centro Oli" Val d'Agri	Basic Design	Taranto	2013
ABB	ENI	Topographic and laser scanning surveys and three-dimensional graphic rendering of the as built of Taranto oil pier	Detail Design	Taranto	2013
SIMECO	ENI	Verification of the efficiency of the acid and hydrocarbons blow down network for three refinery units U-6100, U-6200, U-6700	Basic Design	Taranto	2013
SIMECO	ENI	Rationalization of the sea water consumptions verification	Basic Design	Taranto	2013
PPC	ENI	Hydrocarbons blow down conveyng and acid blow down from the network BD-2 to network BD-3	Basic Design	Taranto	2012
PPC	ENI	Vapor recovery from ship loading by using the fuel gas system	Basic Design	Taranto	2012
PPC	ENI	Installation of No. 23 foam premixers on the factory firefighting system	Detail Design	Taranto	2012

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Chemical Fertilizers					
DG IMPIANTI INDUSTRIALI	VALAGRO	Implementation of chelates section relevant to the fertilizer production plant	Detailed Design	Atessa	2017
DG IMPIANTI INDUSTRIALI	VALAGRO	Implementation of new fertilizer system with the production of liquids chelates products	Detailed Design	Orangeburg County (USA)	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Pharmaceutic					
INALCO	RSM	Verification and plant improvement	Detailed Design	Pistoia	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Environment					
PROGER	ENI	Development of computer simulations aimed to qualitative verification on the atmosphere in industrial sites atmosphere	Detailed Design	Taranto	2018
PROGER	ENI	Study (by means of virtual simulations using dedicated software) of emission in the atmosphere coming from tank dedicated to the storage and handling of petroleum products	Detailed Design	Taranto	2017
GST	ENIPOWER	Erection of a reverse osmosis plant for the production of demi water from sea water and effluent water from TAF plant	FEED	Brindisi	2015
GST	ENI	Revamping of the effluent water treatment system	Basic Design	Livorno	2015
SUEZ	SUEZ	Technical advice for water purification plants in the province of Viterbo	Basic Design	Viterbo	2014/2015
SUEZ	SUEZ	Technical assistance for supervision, start-up and management of water purification plant	Basic Design	Casamassima	2014
ITALVECO	ENI	Revamping of the ground water treatment system	Detailed Design	Sannazzaro de Burgondi	2014
GRANDI BONIFICHE	GRANDI BONIFICHE	Laser scanner survey activity of excavated materials and reclamation for decommissioning of ex-FALCK building site	Detailed Design	Sesto San Giovanni	2014
SUEZ	SUEZ	Technical assistance for supervision, start-up and management of Tasm water purification plant	Basic Design	Rozzano	2013

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Iron & Steel					
EKOPLANT	ILVA	Engineering design and assistance for the construction and erection phases of pipelines for the de-dusting project of AFO 1 stock house	Detailed Design	Taranto	2014
SERIGI	ILVA	Design of the steel structures for the support of the pipelines for the de-dusting project of AFO1 stock house	Detailed Design	Taranto	2014
EKOPLANT	ILVA	Reverse engineering design of mineral suction pipelines for the de-dusting project of AFO2 stock house	Detailed Design	Taranto	2014

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Energy					
DG IMPIANTI INDUSTRIALI	EDISON	Revamping of the Plant in Garaguso	Detailed Design	Garaguso	2017

Contractor	Client	Description and Purpose of Work	Activity	Place	Year
------------	--------	---------------------------------	----------	-------	------

Building & Structure					
GIACOMELLO	JOOMOO FRANCO ROSSO	Erection of the Pavilion JOOMOO at EXPO Milano 2015	Detailed Design	Milano	2014
